# About Us

Founded by a dynamic and dedicated Saudi visionary person, Sharooq Al Jubail International Est. has thrived for the past 14 years with the steadfast support of a dedicated team of 400 employees. Our institution was born from a shared vision to bolster various industry sectors through unwavering commitment to excellence and client satisfaction. Specializing in providing skilled manpower and cutting-edge equipment, we have garnered a reputation as a reliable partner known for going above and beyond.

Our clients attest to the quality of our comprehensive services, spanning QC inspections, civil, mechanical, and electrical works, retrofitting, instrumentation, hydraulic services, welding, fabrication, threading inspections, calibration and testing, coating applications, lubrication inspections, rigging, crane and forklift services, scaffolding services, CNC machine operating services, and general maintenance. Additionally, we provide vital non-destructive testing (NDT) services such as visual dimension inspection (VDI), manual ultrasonic testing (MUT), and magnetic particle inspection (MPI).

In our pursuit to become a key player in the industrial maintenance services sector, Sharooq Al Jubail International Est. is expanding into promising markets within Saudi Arabia. We are venturing into Hydrojetting, De-Watering, Vacuum Truck, Super Sucker Cleaning, and Chemical Cleaning services, aligning with the evolving needs of our clients.

Central to our philosophy is an unwavering dedication to quality and innovation. We continuously exceed client expectations by embracing cutting-edge technology and best practices. Our rigorous recruitment processes ensure that we provide not only manpower but a skilled workforce capable of meeting the dynamic demands of our clients' projects. At the core of our operations is a commitment to operational excellence and safety. We adhere to rigorous standards to safeguard the well-being of our employees and ensure seamless project execution. This commitment has established us as a beacon of reliability and integrity in the industry.

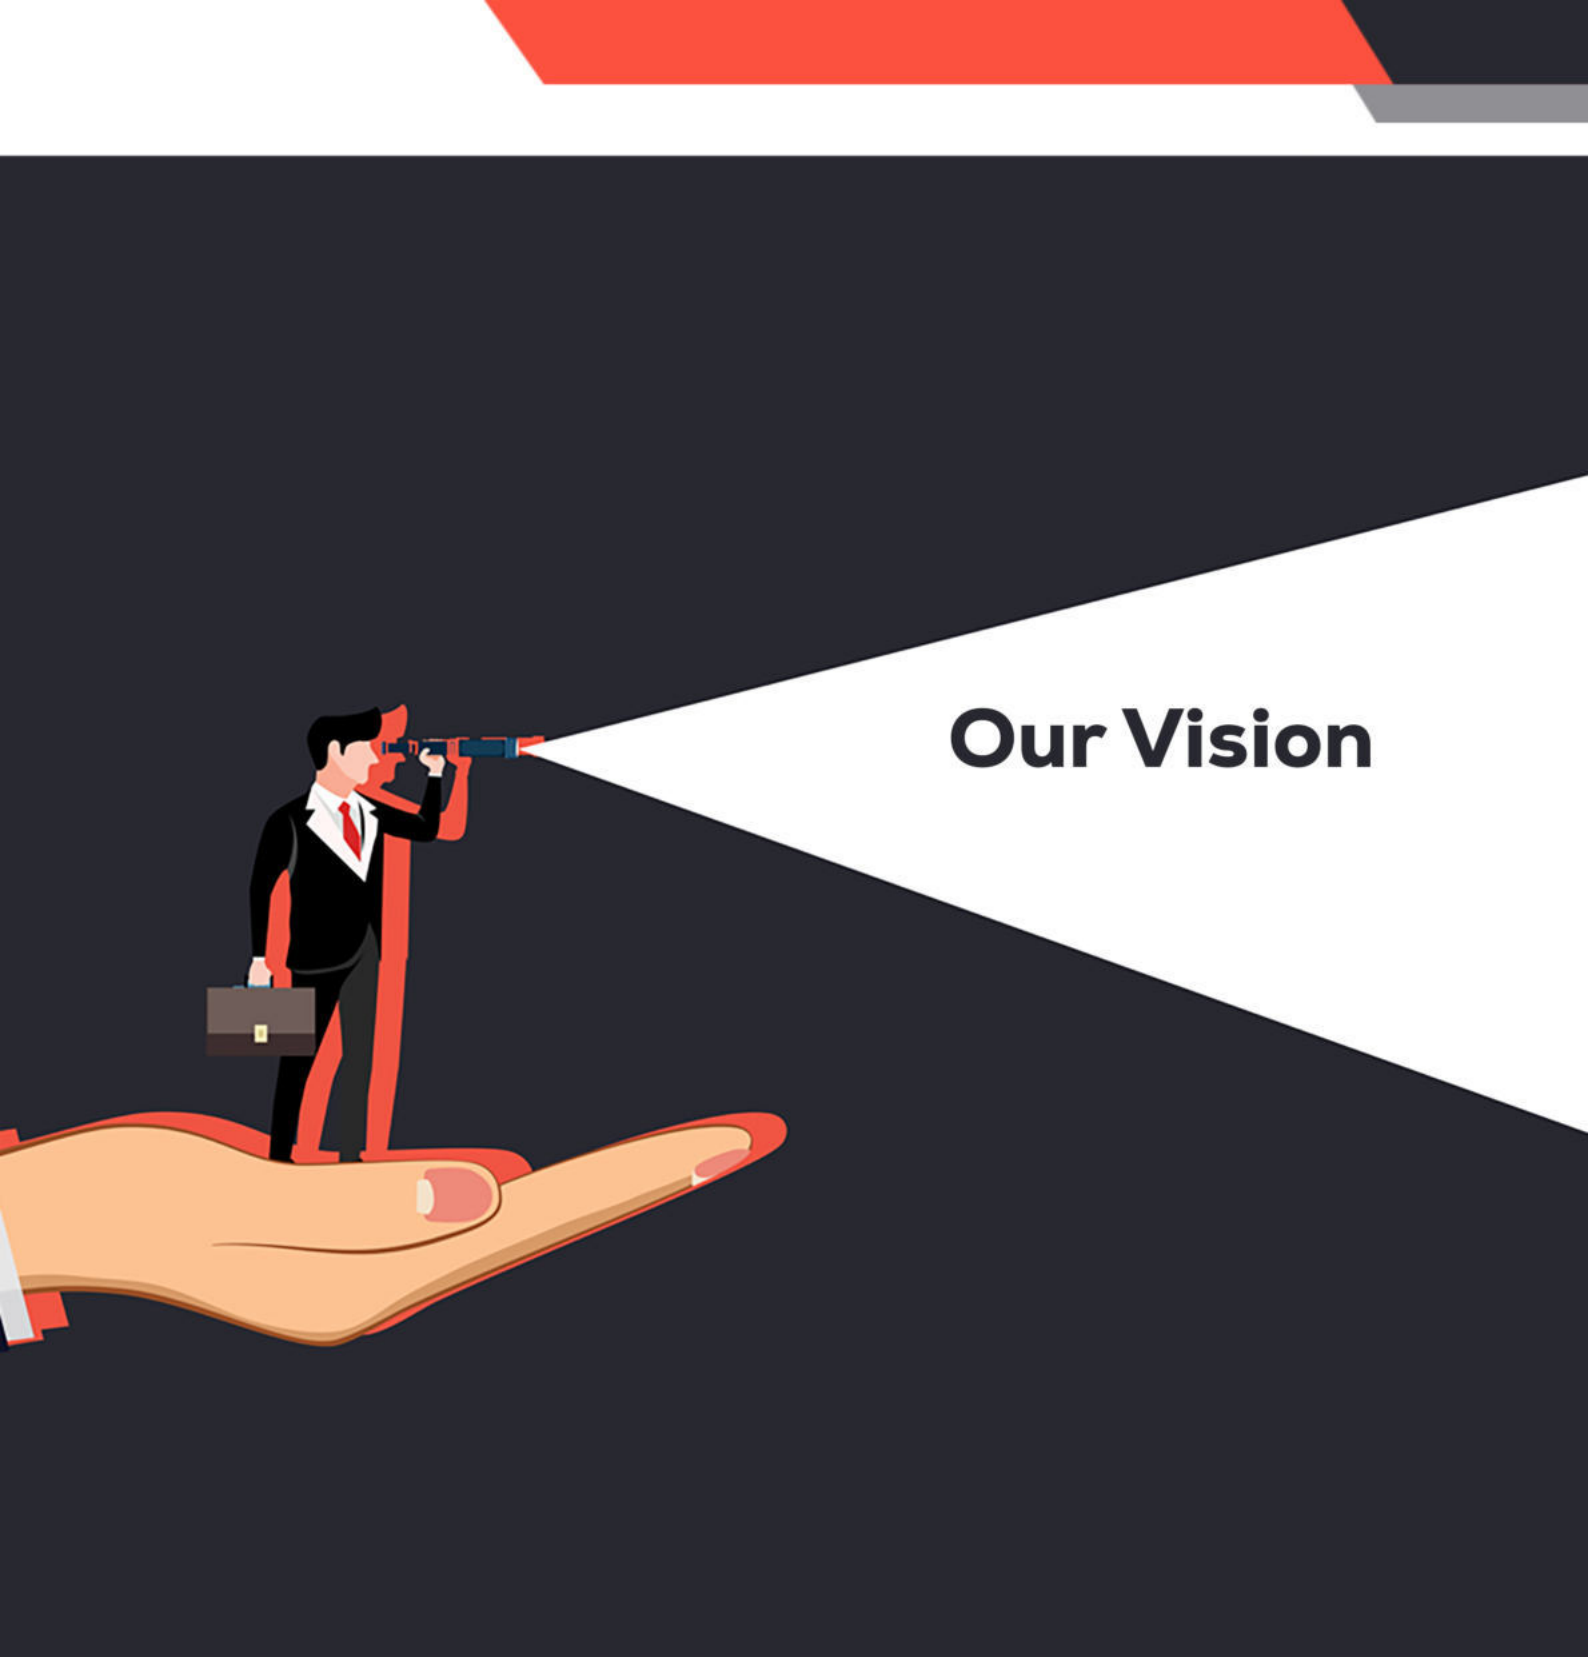

Sharooq Al Jubail International Est. is poised for continued growth and expansion. We remain steadfast in enhancing our market presence, diversifying our service offerings, and cultivating lasting partnerships with clients and stakeholders. As we embark on the next phase of our journey, our passion for innovation and unwavering commitment to delivering exceptional value to our esteemed clients worldwide drive us forward.

# Our Mission

At the core of our mission lies a profound commitment to our people, recognizing them as the bedrock of our existence. We are dedicated to cultivating an inclusive, supportive environment that empowers our team to thrive, innovate, and drive our collective success. Through ongoing investment in their well-being and professional growth, we aim to harness their potential, ensuring that they remain our most invaluable asset and the force behind our continued evolution and impact

## Our Vision

Our vision is to become the trusted leader in our industry by consistently delivering exceptional services, building unwavering customer satisfaction, and setting the standard for excellence in all that we do.

# CORE VALUES

The word "**SHAROOQ**" held great meaning, representing guiding principles that shaped the company's culture and identity. This identity led SHAROOQ to success, exemplifying excellence in industrial maintenance services. In Arabic, it can be understood as meaning "sunrise," signifying a new beginning

A top-down view of various safety and work-related items on a wooden surface. It includes a yellow hard hat, a pair of yellow work gloves, a black and white respirator mask, a roll of white paper with a diagram, a pair of brown leather work boots, and several white measuring tapes.

# OCCUPATIONAL HEALTH *and* SAFETY POLICY STATEMENT

The Occupational Health & Safety of SHAROOQ AL-JUBAIL INTERNATIONAL EST. is our top priority and cannot be compromised. Our workplace is dedicated to being accident-free and injury-free. Achieving this goal necessitates a steadfast commitment from each team member to adhere to safe work practices and promote a healthy work environment. In order to uphold this commitment, we will:

Implement and demonstrate a systematic approach to safety and health management to continuously improve performance.

Ensure compliance with applicable safety and health laws and industry standards by integrating these requirements into all aspects of our business.

Allocate adequate resources to establish and maintain safe work systems.

Conduct hazard and risk assessments to identify, evaluate, and safely manage present and potential hazards associated with our operations.

Enhance and maintain the competence of our personnel to effectively control the risks we encounter.

Drive continual improvement in safety and health performance through innovative technology, training, education, and effective management practices.

Foster a positive culture where employees and third parties are consulted and encouraged to actively participate in site safety and health management.

Establish measurable targets for improvement in all safety and health areas.

Incorporate safety and health performance as a factor in staff performance appraisals and recognition.

Striving towards zero accidents and illnesses..

# QUALITY ASSURANCE POLICY

The management and all employees at Sharooq Al-Jubail International Est. are unwaveringly committed to delivering the highest possible level of service to fulfill the needs and expectations of our clients, suppliers, and subcontractors. This exceptional level of service is achieved through rigorous quality management practices and the adoption of comprehensive procedural systems that underscore the company's competence and reliability in all business interactions.

To uphold and continually enhance our standard of excellence, Sharooq Al-Jubail International Est. has implemented a formal quality management system that adheres to the stringent requirements of ISO 9001:2015. This internationally recognized standard serves as a framework for ensuring that our processes and practices are consistently aligned with best practices and industry benchmarks. By maintaining this certification, we demonstrate our ongoing commitment to quality, efficiency, and customer satisfaction, ensuring that every aspect of our operations meets the highest standards of performance and reliability.

Through our commitment to continuous improvement and adherence to ISO 9001:2015 standards, Sharooq Al-Jubail International Est. strives not only to meet but to exceed the expectations of all our clients. We are dedicated to delivering exceptional service, building trust, and nurturing long-term relationships in every business engagement, while consistently upholding our tagline: **“Driven by Service, Focused on You.”**

# Contracting Services Division

We have provided our clients with highly skilled workers specializing in QC inspections, civil, mechanical, and electrical works, retrofitting, instrumentation, hydraulic services, welding, fabrication, threading inspections, calibration and testing, coating applications, lubrication inspections, rigging, crane and forklift services, scaffolding services, CNC machine operating services, visual dimension inspection (VDI), manual ultrasonic testing (MUT), and magnetic particle inspection (MPI), and general maintenance services.

A central focus of our operations is the provision of highly skilled manpower, which is crucial for the successful completion of a diverse range of projects tailored specifically to meet the unique requirements of our clients. Our team comprises experts with specialized knowledge and experience, ensuring that each project is executed with precision and efficiency.

# Building and Construction Work Services

A new 4-storey office and apartment building, spanning 2,248 square meters at King Khalid Bin Abdulaziz Street, Al Jubail is being managed by the Project Management Team led by the Civil Engineer. The project is currently in progress and is expected to be completed in 2 years.

# Restoration of the Plant Laboratory Floor

The restoration of the laboratory floor includes marking the areas that need attention, chipping away damaged concrete, and applying a concrete grout to fill in the voids and level the surface

After »

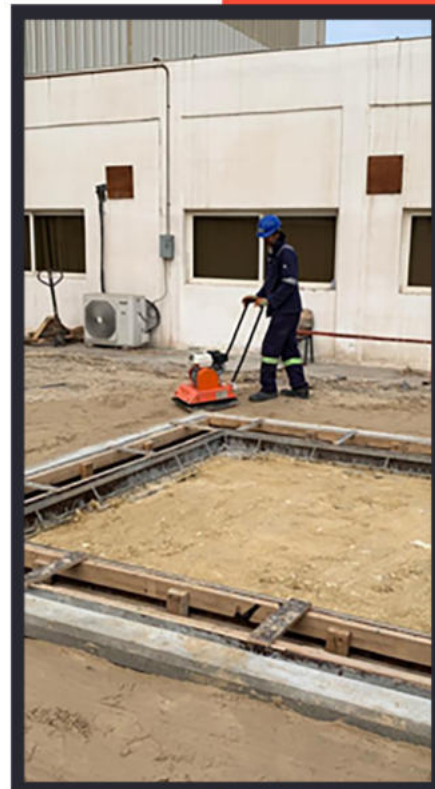

A large background image showing four workers in blue uniforms and hard hats working in a sandy, excavated area. They are using tools like shovels and a jackhammer. A red and white striped caution tape is strung across the site.

# Protector Cleaning Station

Our team has set up the Protector Cleaning Station in one of the plant areas within Industrial Jubail City. This specialized facility is dedicated to the thorough cleaning of protective equipment and tools used in both industrial and laboratory settings.

# Concrete Road Construction with Manholes and Asphalt Overlay

Our team has completed the construction of a concrete road at Gate 3 within the Industrial Jubail City plant area. The project included site preparation, subgrade compaction for a solid foundation, formwork and steel reinforcement setup, and concrete pouring and leveling

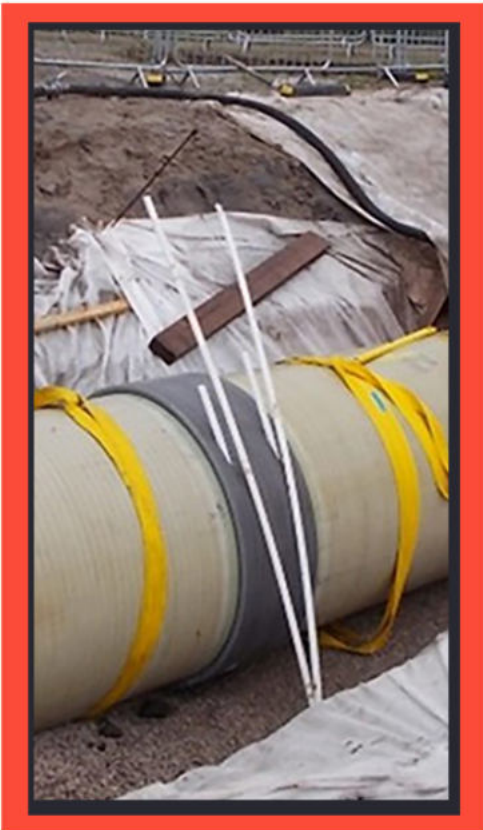

# Completion of 2500 mm Stormwater Management System

Our team has successfully completed a major stormwater management project in Al-Hassa, which involved the installation of a 2500 mm stormwater system.

# Heavy Equipment Services

## Truck Trailer

We offer reliable and efficient trailer truck services tailored to meet the diverse transportation needs of our clients.

## Crane

Our crane services are designed to provide the lifting power and precision needed for even the most challenging projects. From construction sites to industrial facilities, our state-of-the-art cranes and skilled operators ensure safe and efficient lifting operations.

## Forklift

Efficiency and safety are at the core of our forklift services. Whether you need to move pallets, heavy materials, or equipment within your facility or at a job site, our fleet of forklifts is equipped to handle the task.

## Manlift

Our manlift services provide safe and efficient access to elevated areas, making them ideal for tasks that require working at heights. These include maintenance work, construction activities, and installation projects.

## Skid Loader

We offer comprehensive skid loader services designed to handle a wide range of earth-moving and material-handling tasks.

## Boom Truck

Our boom truck services offer versatile solutions for lifting and transporting heavy loads with precision and efficiency. Equipped with an extendable boom arm, these trucks are ideal for various applications including construction, maintenance, and logistics.

## Industrial Services Division

We are dedicated to advancing and providing cutting-edge services in the industrial sector. Our core strategy is focused on pioneering new approaches and making a substantial impact in key industrial markets. We are confident in our skilled workforce, which brings extensive experience in various industrial services, including hydro jetting, de-watering, mechanical and chemical cleaning, super sucker operations, vacuum truck operations, blasting and coating, and hydraulic bolt torquing and tensioning.

## Super Sucker

Our Super Sucker services provide powerful vacuum solutions for efficient removal of sludge, waste, and other materials from various sites.

## Vacuum Tanker

Our Vacuum Tanker services are designed for the safe and efficient transport and disposal of liquid waste and other materials.

## HydroJetting

Our HydroJetting services provide high-pressure water jetting solutions for cleaning, maintenance, and pipe inspection. We offer high and ultra-high pressure water-jet pump units up to 40,000 psi, using the latest hydro-blasting technology and tools.

## De-Watering Pumps

We provide advanced De-Watering Pump services for the removal of excess water from construction sites, industrial areas, or any location prone to flooding. Our pumps are designed to handle large volumes of water efficiently, ensuring that your site remains safe and operational.

## Chemical Cleaning

Our Chemical Cleaning services utilize specialized chemicals and techniques to effectively remove contaminants, deposits, and residues from industrial equipment and systems. Ideal for maintaining the efficiency and longevity of your operations, our chemical cleaning solutions are designed to tackle even the most stubborn build-ups, ensuring optimal performance and compliance with industry standards.

# Other Services

## Mechanical Construction Services

We offer a comprehensive range of services, including the supply of fabricated steel structures, available in both painted and galvanized finishes. Our expertise extends to the erection of steel buildings, specializing in warehouses, generator buildings, and similar structures. We also supply painted storage tanks suited for refineries, steel plants, and chemical industries. Our fabrication services cover building components such as structures, platforms, ladders, supporting frameworks, and other miscellaneous steel work.

## Waste Management Transportation Services

Our fleet includes a range of heavy-duty equipment such as Dry Super Suckers, Wet Super Suckers, and Vacuum Tankers, all designed to handle various waste management challenges efficiently and safely. The system offers dual functionality with advanced features for both vacuum and pressure applications. The vacuum function operates at up to 95 bar pressure, providing 3,100 m<sup>3</sup>/h air displacement and is equipped with vacuum tanks ranging from 13 m<sup>3</sup> to 32 m<sup>3</sup>.

# Other Services

## Hydraulic Bolt Torquing & Tensioning

We offer specialized facilities for bolt torquing and tensioning, utilizing our trained and experienced technicians. They employ proven techniques for the disassembly, assembly, and preload verification of bolted joints. Our focus is on critical aspects of joint integrity, including flange surface quality, joint alignment, gasket selection, bolt preparation, and achieving uniform bolt loading. We use the most suitable torquing methods to ensure the effectiveness and reliability of each joint.

## Blasting & Coating

Our sandblasting machinery is designed to effectively remove mill scale, rust, and oil from steel surfaces accumulated during the manufacturing process, offering a cost-effective solution for surface cleaning. We follow the Sa 3 – SSPC-SP 5 standard to ensure thorough surface preparation. The white blast cleaning process uses dry abrasive blasting to eliminate old coatings, rust, flaky mill scale, and other contaminants, preparing the surface for subsequent treatment.

## Materials and Tools Services

Our extensive range of services ensures that clients have immediate access to the materials and tools they need for their projects. We offer a broad selection of high-quality tools and equipment suited for various applications. This includes measuring tools, carpentry and mechanic tools, lubrication devices, masonry and plumbing tools, and cutting instruments. Additionally, we provide brazing and soldering equipment, welding tools, painting supplies, lifting and pulling gear, and heavy-duty tools. To further support your operations, we also supply safety equipment, silicone and foams, lubricants, and complete cleaning kits, guaranteeing that you have everything necessary for efficient and safe project execution.

## Equipment Rental Services

We provide a diverse range of rental equipment to support various projects, including mobile and crawler cranes, trailers, civil machinery, forklifts, boom trucks, manlifts, generators, air compressors, welding machines, tower lights, water tankers, truck trailers, and rental cars. Our well-maintained fleet ensures reliable and efficient performance for your construction and operational needs.

# ISO Certifications

We ensure that our processes and systems adhere to ISO standards and are continuously improved.
